

## YEALANDS FAMILY WINES – VINO ON THE WATERFRONT.

APRIL 2016

When Yealands asked us to fit out their new HQ and showroom on Princes Wharf we knew it needed to reflect the unique bouquet of their brand and design.

The bare concrete shell was an exciting blank canvas. And after taking possession of the space we could really appreciate the open plan potential this light filled, waterfront setting, had to offer.

Now it was a matter of getting Macintosh Harris Design's stunning concept underway. This included designing and constructing the HVAC and electrical system, installing new partitions, joinery and steel work, and full redecoration in conjunction with the talented design team.

We had a tight deadline to meet, plus we also had to be mindful of the close proximity of other buildings, especially given the number of residential and 9-5 offices in this part of Auckland. So, to minimise disturbance, we regularly adjusted our hours to the most practical, for the job at hand, and ensured site and property managers were easily contactable.

In the end we hit all the right notes for designer and client alike, achieving the perfect balance between functionality and contemporary character. Cheers to that.

*"Lanta combined their experience, knowledge and insight to help us achieve our goal. Their team were professional, communicated well with regular meetings at site, and kept us up to date"* Yealands Wine Group 2016

### KEY POINTS

**Unique look and feel** - Head quarters and showroom in one unique space.

**Team Effort** - Working to MHD design's and to a tight deadlines made working just 9 to 5 not an option.
